

Heatmap showing the distribution of 25 species across 46 quadrats (quad1ha). The species are listed on the y-axis, and the quadrats are listed on the x-axis. The color scale ranges from 0 (white) to 15 (dark red).

Species (y-axis):

- Tocoyena pittieri
- Rosenbergiodendron formosum
- Randia armata
- Psychotria racemosa
- Psychotria marginata
- Psychotria limonensis
- Psychotria horizontalis
- Psychotria hoffmannseggiana
- Psychotria grandis
- Psychotria graciliflora
- Psychotria deflexa
- Psychotria cyanococca
- Psychotria chagrensis
- Psychotria brachiata
- Psychotria acuminata
- Posoqueria latifolia
- Pentagonia macrophylla
- Palicourea guianensis
- Macrocnemum roseum
- Hamelia axillaris
- Guettarda foliacea
- Genipa americana
- Fareaea occidentalis
- Coutarea hexandra
- Coussarea curvigemma
- Chimarrhis parviflora
- Borojoa panamensis
- Appunia seibertii
- Amaioua corymbosa
- Alseis blackiana
- Alibertia edulis
